Professional Summary

Full-stack web developer with hands-on experience in building scalable and user-centric web applications using the MERN stack and Next.js. Skilled in developing responsive interfaces, RESTful APIs, and AI-assisted platforms. Proven experience delivering real-world solutions, including a production-level company website for a manufacturing firm. Strong foundation in problem-solving, system design, and collaborative development, with a focus on writing clean and maintainable code.

Skills

Frontend: HTML, CSS, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, MongoDB, Mongoose, SQL (MySQL), REST APIs
Tools: Git, GitHub, VS Code, Postman, Chrome DevTools
Other Skills: Data Structures & Algorithms, Object-Oriented Programming (OOP), SDLC, Debugging, API Integration, Agile Methodology, Problem Solving

Experience

Intern Jun 2025 – July 2025
Om Techno Pvt. Ltd Noida, India

- Built a responsive company website for Om techno tools.
- The project was developed using Next.js, React, Tailwind, CSS, Vs Code, Git/Git Hub.
- Strengthened my technical skills in frontend development and UI/UX design.

Projects

FinanceFlow – Personal Expense & Budget Planner Dec 2025-March 2026
Tech Stack: HTML5, CSS3, JavaScript (ES6+), Chart.js, LocalStorage API

- Architected a financial tool that uses heuristic-based categorization to automatically sort user spending descriptions into 10+ Indian-specific expense categories.
- Built a "Smart Input" system that parses strings to extract amounts and intents, reducing manual dropdown selection time by 40%.
- Optimized data processing logic to handle real-time updates for complex multi-slice pie charts representing income-to-expense ratios.
- Focused on Object-Oriented JavaScript to manage state and complex calculations for monthly financial snapshots.

Smart Placement Career Portal Jan 2026 – April 2026
Tools Used: React, Node.js, Express, MongoDB, Vite, JavaScript

- Developed an intelligent placement portal that connects students with recruiters through resume uploads, job recommendations, and career roadmap guidance.
- Implemented student-facing dashboards for profile management, resume parsing, application tracking, and personalized job/skill suggestions.
- Built backend APIs for authentication, student profiles, applications, recruiter/admin job posting, and offer management.
- Designed an AI-powered recommendation engine to match student skills with relevant job opportunities and generate career pathways.
- Planned recruiter/admin functionality for posting jobs, managing vacancies, and tracking interested applicants.

Certification

Java Foundation Course	Oracle Academy	Aug 2024- Nov 2024
Complete Full Stack Web Development	Udemy	May 2024-July 2024

Education

Sharda University **2023-Present**
Bachelor of Technology in Computer Science
