Professional Summary

Aspiring Software Engineer skilled in Java, C, C++, and MERN stack with hands-on experience in building full-stack applications, interactive dashboards, and AI-powered platforms. Passionate Software Developer with experience in creating innovative web applications like Student Alert Detection and Project Nexus. Certified in Java Foundation (Oracle Academy) and experienced in hackathons and internships.

Skills

Frontend: React.js, TypeScript, Next.js, HTML/CSS, Tailwind CSS, JavaScript
Backend: Nodejs, Express.js, MongoDB, Mongoose, SQL, JWT
Tools: Git, VS Code, Visual Studio, Excel**,** Docker
Soft Skills: Teamwork, Time Management, Innovation, Emotional Stability, etc.

Experience

Intern **May 2025 – June 2025**

Thameslink Info Solutions Pvt. Ltd. | Frontend Developer

Tools/Technologies**:** Visual Studio Code, React.js, Vite, Node.js, Tailwind CSS, React Router, Recharts, React Icons, etc.

• **Achievements** - Developed a complete, multi-page interactive dashboard from scratch using React, featuring KPI cards, dynamic charts, and interactive data tables.

• **Improvements** - Enhanced data persistence by creating a custom hook that automatically saves user profile details and settings across browser sessions.

• **Outcomes** - Successfully demonstrated proficiency in a modern frontend stack (React, Tailwind CSS), producing a polished and fully functional web application.

Projects

Student Alert Application **Jan 2024 – April 2024**

Tools Used: React.js, Node, Express,js, MongoDB

- **Student Alert Application** is a Chrome extension designed to monitor continuous screen usage during study sessions.
- It intelligently provides alerts and break reminders to prevent eye strain and mental fatigue.
- The application helps students manage time effectively by encouraging balanced study intervals.
- Built using modern web technologies, it ensures a lightweight and responsive user experience.
- Overall, it promotes healthier, more focused, and productive study habits.

NexusCampus **July 2025 – Dec 2025**

Tools Used: Node, React.js, Express.js, MongoDB

- **NexusCampus** is a centralized platform that integrates social networking, skill exchange, project collaboration, and campus event management.
- It enables students to connect, communicate via real-time chat, discover events, and form project teams based on skills and interests.
- The system is built using the **MERN stack** with **WebSockets** to ensure scalability, responsiveness, and instant communication.
- Its uniqueness lies in intelligent skill–project matching and a unified dashboard that reduces information fragmentation across campus platforms.

Achievements & Certifications

• Participated in Lovable AI Hackathon, Deployed a Blog Website (Chronicle).
• Participated in a Hackathon organized by Devnovate (2025)
• Participated in SIH (2025) and also got a participation certificate
• Certification in Java Foundation Course of Oracle Academy.

Education

Sharda University **Aug 2023 - Present**

Bachelor of Technology in Computer Science , Greater Noida, India
